ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

(Newsbriefs continued)

New application forms for Public Health Service Grants are now available in the Contracts and Grants Office, 1483 Fourth Avenue. The forms contain changes in the areas of research using human subjects or vertebrate animals and must be used for February 1 and subsequent deadlines. The 1980 versions of the PHS 398 and PHS 2590 forms may still be used for proposals where human subjects or animals are not involved until these supplies are exhausted. For further information call x2977.

In addition, the Public Health Service has issued a revised Grants Policy Statement. This important booklet is intended to provide an understanding of the PHS guidelines for administration of grants. Copies are available at $5 each from: Superintendent of Documents, US Government Printing Office, Washington, DC 20402.

The Marin/San Francisco Chapter of the American Lupus Society has donated $6,000 to the Arthritis/Immunology Section of the VAMC in an effort to draw attention to the crippling "lupus" disease and to lend support to research.

The gift is in recognition of the UCSF scientists' work in lupus research and is the first donation the local chapter has made to any medical program. The donation will be used to purchase a centrifuge, according to William Seaman, MD, chief of the section and assistant professor of Medicine.

Lupus is an immune complex disease in which the body's normal defense system turns against itself and attacks the skin and joints, and in many cases eventually damages blood vessels and major organs. The as-yet-incurable disease appears to attack women eight to ten times more often than men, usually between the ages of 15 to 35.

Outdoors Unlimited is renting a snow cabin in South Lake Tahoe through March to interested UCSF faculty, students and staff. The cabin, which is just five minutes from Heavenly Valley, is available Sunday to Friday and on selected weekends. The cabin is a modern home with three bedrooms, two baths, a fireplace and a fully equipped kitchen, and can accommodate up to 14 people on beds, and up to 20 if floor space is used.

The cabin costs $60 per night weekdays, $100 per night weekends. An additional $50 deposit fee is also required. At least one of the renters must be from UCSF. Sleeping bags are necessary. For further information visit the Outdoors Unlimited Center, 24 Kirkham St., 11:30 a.m. to 1:30 p.m. and 4 to 6 p.m., weekdays, or call x2078 or x1800.

The 1982-83 UCSF telephone directories are now available from the Mailing Division, Room S 26, 10:30 a.m. to noon and 1 to 4 p.m. When claiming directories, department representatives must know their account fund number to which the books will be recharged. Each department is entitled to one free directory for each campus telephone instrument in the department. Additional directories are available at $2.50 each. For further information contact Frank Theriot at x1581.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the time period January 29 to February 11, will be **Tuesday, January 18, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

THURSDAY 20

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Evaluation of Trauma Patients.* Donald Trunkey, Surg., SFGH. Rm. 4H40. 8:30 a.m.

TUESDAY 25

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Streptococcal Infections.* Robert Levin, Clin. Pharm. *Acute Poststreptococcal Glomerulonephritis.* Anthony Portale, Med. & Ped. Carr. Aud. 8:30-10 a.m.

ETHNIC/MINORITY ISSUES CLINICAL CASE CONFERENCE: *Psychological Effects of Disability in a Black Activist.* Robert Mahon, Psychol., SFGH. Open to mental health professionals, staff and trainees from UCSF, SFGH and community agencies. Sponsored by UCSF/SFGH Psychr. Dept. Rm. 7E12. 11 a.m.-noon.

MEDICINE GRAND ROUNDS: *Acute Myelogenous Leukemia.* Curt Ries, Hematol/Oncol. Fam. Pract. Carr Aud. 11:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Occupational Stress.* Joseph LaDou, Med. Carr Aud. 5:15-6:30 p.m.

THURSDAY 27

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Hand Injuries.* Robert Markison, Surg., SFGH. Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS. Carr Aud. 12:30 p.m.

Vol. 9 No. 1, Jan. 15-28, 1983

TODAY & TOMORROW

JANUARY 15-28, 1983

The campus will celebrate the inauguration of its fifth chancellor, Julius R. Krevans, MD, at UCSF's second annual Founders Day, Saturday, March 5.

The inauguration will be at 2 p.m. in Cole Hall, preceded by the colorful academic robing ceremony and procession across Parnassus Avenue. The formal inaugural address will be delivered by Steven Muller, PhD, president of Johns Hopkins University, where Dr. Krevans served before coming to UCSF in 1971.

A reception, to which the entire campus is invited, will be held after the inauguration in the mezzanine of the School of Nursing building.

The inauguration is a special university tradition hosted by UC President David Saxon. It will include speakers representing all aspects of the campus including William K. Coblentz, chair of the UCSF Board of Overseers and a former UC Regent; John A. Starkweather, PhD, on behalf of the UCSF faculty; Carol M. Copperud, representing SEC; and Marjorie Bogaert for the UCSF student body.

Several Founders Day activities are being planned including scientific presentations and tours of the four schools, four simultaneous lectures by faculty, and an all-campus kickoff party the day before in the Millberry Union gym from 3 to 5 p.m.

UCSF's graduate program in physiology was rated number one in the US in a survey of academics from around the country, according to a report issued early this year by the National Academy of Sciences.

The academy's summary of the ratings that faculty in the biological sciences gave their peers in the areas of biochemistry, botany, cellular and molecular biology, microbiology, physiology and zoology was the fourth in a series of five reports on the quality of graduate education in US universities.

UCSF's Department of Physiology—which includes Endocrinology and Neurosciences—came out tops in its field, with a rating of 4.5 (out of a possible 5), followed by five other universities tied at 4.3—Yale, UCLA, Rockefeller, and the universities of Washington and Pennsylvania.

In other categories that apply to UCSF, the Department of Biochemistry tied with Harvard Medical School at 4.4, with MIT rating a maximum of 5. UCSF's relatively small Department of Microbiology was rated 3.8, with MIT again first with 4.9.

Ped. Gastroenterol. HSW 303. Noon-1 p.m.

LABORATORY MEDICINE CORE CURRICULUM IN CHEMISTRY: *Mineralocorticoids.* Edward G. Biglieri, Med. & Lab. Med. S 214. 2-3:30 p.m.

CVRI SEMINARS & CONFERENCES: *Sympathetic Control of the Coronary Circulation.* Eric O. Feigl, Physiol., U Washington. S 1364. 4-5:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Renin-Angiotensin System.* Michael Humphreys, Nephrol., SFGH. S 214. 4-5 p.m.

UROLOGY RADIOLOGY CONFERENCE. Emil A. Tanagho, Urol. & Surg.; Alphonse J. Palubinskas, Radiol. M 460. 4:30-6 p.m.

VOLUNTEER ORIENTATION. An orientation session sponsored by Volunteer Services to familiarize prospective applicants with volunteer opportunities available at UCSF Hospitals & Clinics. For further information call x1196. U 312. 6-9 p.m.*

18 TUESDAY

EMPLOYEE HEALTH PROMOTION PROGRAMS JAN 18 & 27

Fitness Evaluation. Testing in cardiovascular function, body strength, & flexibility. Will take 30 minutes. Fee $3. MU Madrone Room, 8 a.m.-5 p.m. Jan. 18.

Free Blood Pressure Screening. Counseling provided. Will take 20 minutes. MU Madrone Room. 8 a.m.-5 p.m. Jan. 27.

Registration is required. Contact Office of Public Service Programs, x3206.

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Use of Prophylactic Antibiotics for Cesarean Sections.* Lynn Wonekura, Ob/Gyn, USC. S 1364. 9 a.m.

DERMATOLOGY GRAND ROUNDS: *Hair Treatments & Alopecia.* Vera Price, Derm. & Med. HSW 301. 8-9 a.m.

UCSF/UCLA INTERCAMPUS ORAL BIOLOGY EXCHANGE PROGRAM SEMINAR: *Normal Microflora of the Oral Cavity.* Vera Sutter, Microbiol., UCLA. HSW 303. 9 a.m.

ENDOCRINE GRAND ROUNDS: *The PTH Receptor: Clinical & Biochemical Implications for Hormone Action.* Claude D. Arnaud, Anne Teitelbaum, both Med. LPPI Aud. 9 a.m.

ORAL BIOLOGY CONNECTIVE TISSUE SEMINARS: *Mechanisms of Angiogenesis in Wound Repair.* Michael J. Banda, Lab. Radiobiol. U 312. 10-11:30 a.m.

PRIMARY CARE LECTURE SERIES: *Sexually Transmitted Disease.* Stephen Follansbee, Med. *Ambulatory Assessment & Management of Hepatitis.* Bernard Lo, Gen. Int. Med. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Symposium on Aortic Dissection.* Bruce Brundage, Med. & Radiol.; Melvin Cheitlin, Med.; Daniel Ullyot, Surg. Cole Hall. 10:30 a.m.-noon.

PSYCHIATRY GRAND ROUNDS: *Biobehavioral Factors in Coronary Heart Disease.* Redford Williams, Psychr., Duke U. HSW 301. 11 a.m.-12:30 p.m.

ORAL BIOLOGY 220 SEMINARS: *Anaerobic Bacteria of the Oropharynx.* Vera Sutter, Microbiol., UCLA. HSW 302. Noon-1 p.m.

BROWN BAG TOURS LECTURE SERIES: *TV News: Real or Hype?* Russ Coughlin, KGO-TV. Tapes of all talks available for listening in HSE 345, SIMA unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

ANATOMY SEMINAR: In Vitro & In Vivo *Growth of t^{w5}/t^{w5} Embryonic Cells.* Terry Magnuson, Ped. HSE 1309. Noon.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

UROPHYSIOLOGY CONFERENCE: *Ultrasonographic Urodynamics.* Inder Perkash, Urol., VAMC. M 460. 4:30-6 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

20 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Update: Practical Automated Perimetry & Perimeters.* Michael Drake, Ophthal. S 214. 9:15 a.m. Preceded by Patient Exams & Discussion: *Glaucoma.* Faculty Moderator H. D. Hoskins, Clin. Res. Cntr. for Eye Dis. 8 a.m.

OCCUPATIONAL MEDICINE GRAND ROUNDS: *Diabetes—What the Occupational Physician Should Know.* Ralph Alexander, Med. & Diabetic Teaching Cntr. A 455. 9-10 a.m. Preceded by Clinical Case Presentation. Howard Kopping. 8-9 a.m.

NEUROSURGERY GRAND ROUNDS: HSW 302. 5:15-6:30 p.m.

21 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR. Presented by Moffitt Pulmonary staff. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CLINICAL CONFERENCE OF THE LPPI CHILD & ADOLESCENT SERVICE: *Grief Reaction Following Accidental Death of a Sibling.* Thomas C. Mills, John C. Sorbo, both LPPI; Dale McNeil, Psychol.; Murray Persky, Charles Binger, both Psychr. LPPI Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *"High on Research" Aspects of Morphine Biosynthesis: Stereoselectivity & Substrate Specificity.* Einar Brochmann-Hanssen, Pharm. Chem. & Pharmacognosy. S 1364. 11 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Physiology & Chemistry of CRF & GRF.* Wylie Vale, Peptide Biol. Lab. Salk Inst. M 1486. Noon.

* — Open to the public

24 MONDAY

OTOLARYNGOLOGY CLINICAL ROUNDS. A 723. 8-10 a.m.

NUTRITIONAL ISSUES IN CLINICAL CARE: *Maternal Nutrition.* Barbara Abrams, Ob/Gyn. HSW 303. Noon-1 p.m.

LABORATORY MEDICINE CORE CURRICULUM IN CHEMISTRY: *Phaechromocytoma.* C. Diana Nicoll, Lab. Med. S 214. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Gastric Analysis.* Clifford Deveney, Surg., VAMC. S 214. 4-5 p.m.

CVRI SEMINARS & CONFERENCES: *Expression of Immune Reactions in Pulmonary Parenchyma.* H. Benfer Kaltreider, Med. S 1364. 4-5:30 p.m.

25 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY/ REPRODUCTIVE SCIENCES GRAND ROUNDS: *Pregnancy Following Breast Cancer.* W. Gordon Peacock & George A. Winch, both Ob/Gyn. S 1364. 9 a.m.

PROCTOR FOUNDATION SPECIAL LECTURE: *Interpretation of Results of Gallium Scanning.* Robert Hattner, Nuclear Med. S 318. 11 a.m.

PULMONARY GRAND ROUNDS: *Death in the West: The Politics of Smoking.* (Famous videotape will be shown). Stanton Glantz, Med. M 989. Noon.

PERINATAL MORBIDITY & MORTALITY CONFERENCE. M 666. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. Noon-1:30 p.m. Special instructions for beginners 12:10-12:30 p.m.*

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Sex Determination in Drosophila: A Molecular & Genetic Study.* Bruce Baker, Biol., UCSD. HSW 302. 4 p.m.

UCSF/UC BERKELEY BIOENGINEERING SEMINAR: *Cardiac Function.* Kenji Sunagawa, Johns Hopkins. 240 Bechtel Engr. Cntr., UC-Berkeley. 4 p.m. For further information contact Kathy Schermerhorn, (ATSS) 8-582-8790.

Free.* Free parking available at MU garage. Sponsored by Public Service Programs & Committee for Arts & Lectures.

27 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *A Picture is Worth 10,000 Words.* Carl Minatoya, Ophthal. Discussor Bruce Morris, Ophthal. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Strabismus.* Faculty Moderator Creig Hoyt, Ophthal. 8 a.m.

PEDIATRIC GRAND ROUNDS. S 664. 8:30 a.m.

PHYSICIAN EDUCATION HEARINGS JAN 27 & 28

Students, faculty and alumni of the School of Medicine are invited to participate in the first regional hearings of the AAMC Panel on the "General Professional Education of the Physician." Part of a three-year study to review and appraise the educational period from when a pre-medical student first enters college to the time the MD is awarded. Individuals wishing to appear personally should contact August G. Swanson, MD, project director, AAMC, Suite 200, One DuPont Circle, N. W., Washington, D. C. 20036, (202) 828-0430. Individual comments for presentation may be forwarded to Dean Alan Goldfien, S 221, x2346. Held in Cole Hall. 9:30 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *Present Status of Antithrombotic Therapy in Cerebral Ischemia.* Henry J. M. Barnett, Neurol. Sci., U Western Ontario. S 664. 11 a.m.-12:05 p.m.

EPIDEMIOLOGY & INTERNATIONAL HEALTH LECTURE. For topic & speaker call x1374. HSW 1699. Noon-1 p.m.

TOPICS IN MEDICAL ANTHROPOLOGY: *Ritualized Homosexuality in Melanesia: New Data & Recent Comparative Perspectives.* Gilbert Herdt, Stanford. 1320-3rd Ave. Noon-1:30 p.m.

UCSF/MOUNT ZION GERIATRIC CONFERENCE: *Health & Aging Policy.* Carroll Estes, Social & Behavioral Sci., Schl. Nurs. Herbst Hall, Mount Zion. Noon.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY/ ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

PROCTOR FOUNDATION RESEARCH SEMINAR: *Ocular Infections by Type 2 Herpes Simplex Virus.* Jang O. Oh, Microbiol., PF. Hind Library, 95 Kirkham St. 3:45 p.m.

SELF DEFENSE CLASSES

Women's Self Defense Review. Jan. 17-Feb. 14.

One Day Self Defense Workshop. Jan. 29.

To register contact Rape Prevention Education Program, x5683.

DEVELOPMENT & TRAINING PROGRAMS

Moving Within the System. Jan. 20-Feb. 3.

All About Committee Meetings. Jan. 25 & 27.

Word Processing—One Small Step for Your Kind. Jan. 26.

Open to all campus employees. To register call x4032.

&SFGH

TUESDAY 18

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Use of the Viral Lab in Clinical Practice.* William Drew, Lab. Med. *Enteroviral Infections in Neonates.* David Coulter, Infect. Dis. Carr Aud. 8:30-10 a.m.

ETHNIC/MINORITY ISSUES CLINICAL CASE CONFERENCE: *Resisting the Urge to "Help" in Outpatient Therapy with a Depressed Woman.* Terry McCall, Social Work. Open to mental health professionals, staff and trainees from UCSF, SFGH and community agencies. Hosted by UCSF/SFGH Psychr. Dept. Rm. 7E12. 11 a.m.-noon.

MEDICINE GRAND ROUNDS: *Calcium Channel Blockers.* Nora Goldschlager, Cardiol., SFGH. Carr Aud. 11:30 a.m.

WEDNESDAY 19

UROLOGY GRAND ROUNDS. SFGH Cafeteria. 7:30 a.m.

(SFGH continued on back page)

NEWS BRIEFS

The School of Dentistry is offering a new series of monthly seminars for all faculty and students, beginning this month. Called "The School of Dentistry Dean's Seminars," they will feature leading members of the faculty and distinguished guest speakers discussing major topics in clinical dentistry, the basic biomedical, behavioral and social sciences relevant to dentistry, and important issues in the politics and economics of health care.

The presentations will be held on Thursdays in Room HSW 303 from 12:15 to 2 p.m. The first three are:

- January 20: "Federalism, Fiscal Crisis, the Academic Health Center: Implications for Dental Service and Education." Philip R. Lee, MD, professor, Social Medicine and director, Institute for Health Policy Studies;
- February 17: "Changes in Dental Caries and Project Trends—How Will They Affect the Dental Profession?" Ernest Newbrun, DMD, PhD, professor, Oral Biology and director, Laboratory of Cariology, Division of Oral Biology;
- March 24: "Frontiers in Periodontics." Roy C. Page, DDS, PhD, professor, Periodontology and Pathology; director, Center for Research in Oral Biology, University of Washington, Seattle.

Continuing education credit is available. The Dean's Seminar series is organized by the School of Dentistry Committee on Faculty Development whose members include John S. Greenspan, chair, Thomas M. Christie, John B. Holmes, Robert J. Issacson, Malcolm D. Jendresen and Samuel J. Wycoff.

William F. Ganong, MD, professor and chair of the Department of Physiology, has been appointed to the Jack D. and De Loris Lange Chair in Physiology.

Ganong, a 1949 graduate of Harvard Medical School, came to UCSF in 1958 as an assistant professor. He served as vice chair of the Department of Physiology from 1963 to 1968 and became chair in 1970. The recipient of numerous awards, Ganong was named the eleventh UCSF Faculty Research Lecturer in 1968 and a fellow of the American Association for the Advancement of Science in 1980.

The chair was established last year with funds donated to UCSF by the two founders of Lange Medical Publications. Jack Lange, MD, has been associated with the University since 1943, when he completed his medical training here. He joined the clinical faculty in 1946 and is now clinical professor emeritus of medicine.

A special tribute to Helen Gofman, MD, on the occasion of her retirement from the Child Study Unit, will be held on Monday, February 7, in Cole Hall from 1 to 5 p.m.

The "festschrift" will include presentations by some 15 faculty members, former Child Study Unit fellows and house staff. Martin E. Glasser, MD, director of the Child Study Unit, Melvin M. Grumbach, MD, chair of the Department of Pediatrics, and Chancellor Julius R. Krevans, MD, also will pay tribute.

Gofman, who received her MD from UCSF in 1945, was instrumental in developing the unit in 1948, under George Schade, MD, and served as director from 1961 to 1973. She is presently co-director of the unit and medical director of the Pediatric Department's Reading and Language Development Clinic.

The UCSF Child Study Unit is an unusual, special training program in behavioral and developmental pediatrics designed to help pediatricians, family physicians, and other health professionals learn to deal effectively with behavioral problems in children. The unit also provides evaluation and consultation services for children with psychosocial and/or developmental problems, and conducts research studies in the field of behavioral pediatrics.

A special weight management program for teenagers, called "Shapedown," will begin on campus, Wednesday, January 26. The program, sponsored by the UCSF Adolescent Medicine Unit, combines diet, exercise and behavioral techniques. Group classes will meet every Wednesday for 14 weeks from 4 to 5:30 p.m. in the Ambulatory Care Center.

The classes cost $85 and include parent sessions and a workbook. Advance registration is required.

Obesity is the number one form of malnutrition in teens, states Jackie Braisted, a co-leader for the program. She adds, however, that obese teenagers often are more effective than adults in losing weight and keeping it off.

Previous "Shapedown" programs have been very successful, with participants maintaining an average weight loss of 10 percent of their body weight, 12 months after completing the program. Programs have been developed throughout the country patterened after the UCSF program.

To register or for further information on the program call x2184.

Campus administration is planning to institute a new system of communication by TV monitor, which will broadcast announcements of administrative and personnel topics, news of clinical and scientific achievements, as well as more rapid responses to questions about ongoing situations of immediate concern to the campus, such as the current state and university budget and the Medi-Cal contract.

The program will utilize existing staff of both the News and Public Information Department and EMR, as well as EMR's extensive technology, already in place for both cable TV and microwave broadcasting. The program, called "UCSF News Update," will be seen on TV monitors located in strategic places on campus and at SFGH, VAMC, CED and our other outlying facilities.

It will supplement already existing print methods of communicating with the campus, such as *Today/Tomorrow, UCSF Journal,* internal memos and posters.

Plans are for "UCSF News Update" to start operation sometime in March. Janet Norton, assistant director, News and Public Information Services, and Peter Ng, director, EMR, are coordinating the program. For further information contact Janet Norton at x2557.

Long/Moffitt Hospital construction activities continue through March as part of the remodeling needed to join the two buildings. They include:

- Through January: Preparation to install the new service elevator will mean chipping, drilling concrete and pouring concrete.
- January 24: Balance of Clinical Labs, except Blood Bank and Microbiology, will move into new space on the fifth floor of Long Hospital.
- March 15: Target date for completion of Moffitt Operating Room remodeling. At that time, UC operating rooms will move to Moffitt, closing the last patient care facility in UC Hospital.
- March 30: The 12th floor of Long Hospital scheduled for completion. More patient moves will take place including Orthopaedic Service transfering from the fifth floor of Moffitt Hospital.
- Through March: Electrical and other utility shutdowns in several units in Moffitt Hospital. Extensive shutdowns will occur the weekend of January 22, accompanied by loud jackhammering on the outside walls of Moffitt's south and east wings. Daily notices will be circulated when shutdowns occur.

For further information call x4073.

The Department of Ophthalmology has established a scholarship fund in memory of Rebecca Law, the department's management services officer for some 20 years, who passed away in November of last year. She was known by friends and colleagues as "a selfless individual who worked countless hours for the benefit of all." The fund will be used to benefit her two sons, ages 12 and 16. Contributions can be sent to Jayne Barbi, Department of Ophthalmology, Room U 490. For further information call x1921.

UCSF researchers have established a new program to help immigrant children make a healthy transition from their native fare to American foods.

The project is being carried out by the newly established "Bay Area Human Nutrition Center" located at SFGH, affiliated with UCSF and UC-Berkeley, under Norman Kretchmer, MD, PhD, and Malcolm Holliday, MD. It will involve immigrant children at three S. F. School District Newcomer Education Centers in the Mission, Chinatown and South of Market.

Many of the children at these schools who have recently arrived from Latin America, the Phillipines, China and Southeast Asia, are known to be at high risk for nutritional problems. Under the program, each child will be examined by the center's medical and dental staff; those needing further evaluation will be referred to a new Pediatric Nutrition Clinic at SFGH, which will perform diabetes screening and other assessments.

As part of the project, information on current diet and family food habits will be obtained and nutritional education programs developed appropriate to the cultural backgrounds and financial situations of the children.

A clinical study on the effect of naloxone in the treatment of septic shock, a difficult to manage and often fatal disease, is beginning at SFGH under the direction of Merle Sande, MD, chief of Medicine. The US Army Research and Development Command has provided some $150,000 for the two-year study, to be conducted in collaboration with Providence Medical Center, Portland.

Preliminary studies by researchers, including those in Portland, suggest that naloxone is effective in treating septic shock, without the toxic side effects that sometimes accompany conventional therapy with dopamine. The SFGH study will compare naloxone to therapy with dopamine and to a placebo in patients who do not respond to dopamine alone.

Septic shock results from massive bacterial infection and is characterized by a rapid decrease in blood pressure and heart function. Mortality runs as high as 60 percent, according to Sande. He adds that naloxone could make a major contribution to management of the disease if it is proven to be effective.

The Millberry Union Recreation Department continues to offer massage services to the UCSF campus community. Experienced, certified masseuses and masseurs provide high quality, professional Swedish/Esalen, Shiatsu and other types of massage at $9/half-hour, $17/hour for Millberry Union members and $13/half hour, $20/hour for nonmembers. Fee includes a free sauna. Appointments are available weekdays 8 a.m. to 8 p.m. and Saturdays, noon to 5 p.m. and can be made by calling x1115. Massage for hospitalized patients can be arranged on a private, non-insurance basis by contacting Linda Poelzl at x1800.

(Newsbriefs continued on back page)

HONORS & AWARDS

J. Michael Bishop, director, Hooper Foundation; **Harold E. Varmus,** both professors, Microbiology: 1983 Passano Foundation Award for their discovery that the oncogenes of RNA tumor viruses are derived from normal cellular genes. Award includes an honorarium of $15,000 each.

Choh Hao Li, director, Hormone Research Laboratory; professor, Biochemistry/Biophysics: J. Heyrovsky Gold Plaque for Achievement in Chemistry, Czechoslovak Academy of Sciences.

Robert D. Gibson, assistant vice chancellor, Student Academic Affairs & Registrar: President-elect, American Association of Colleges of Pharmacy.

Vera H. Price, associate clinical professor, Dermatology & Medicine: Board of Directors, American Academy of Dermatology.

Noel L. Christian, manager, Employee Relations: Appointed by UC President Saxon to Campus Advisory Committee A to visit UC-Irvine with five other UC employees next month.

H. Daniel Perez, assistant professor, Medicine, SFGH: member, Rosalind Russell Arthritis Research Laboratory & director, SFGH Arthritis Clinic: Five-year established investigatorship award, American Heart Association.

Samuel T. Dove, intern, Medicine: 1982 Henry J. Kaiser Family Foundation Merit Award for "outstanding academic achievement, leadership and community involvement during his undergraduate studies" while at Duke University.

James Cleaver, professor, Radiology: Visited Japan in November at the invitation of the Princess Kikuko Takamatsu, to report at a symposium on his research on repair of human genes and cancer.

Robert B. Jaffe, professor & chair, Obstetrics/Gynecology & Reproductive Sciences: American Association of Physicians.

John C. Greene, dean, School of Dentistry: Chair, Academic Planning & Program Review Board Health Sciences Committee, UC-Systemwide.

Gerald Charles, associate professor, Medicine; chief, General Medicine, VAMC: Finalist in the 1982 Annual Sam Rose Awards for "contributions to the quality of service and concern for veterans and their beneficiaries."

Lloyd H. Smith, professor & chair, Department of Medicine: Guest lecturer, Stanford Community of Internists' Symposium, Nov. 18.

Lawrence M. Field, assistant clinical professor, Dermatology: Director, new forum, "Dermatologic Plastic Surgery," American Academy of Dermatology, Dec., 1982; Contributing editor, *Journal of Dermatologic Surgery & Oncology.*

Mary L. Williams, assistant professor, Dermatology & Pediatrics: March of Dimes Basil O'Connor Starter Research Grant.

Mary Cruise, Doctor of Nursing Sciences student: 1982-83 Canadian Nurses' Foundation Fellowship.

APPOINTMENTS

Mary Anne Koda-Kimble: Appointed assistant dean, Student Affairs, School of Pharmacy. A 1969 graduate of the school, she has been vice-chair for education in the Division of Clinical Pharmacy since 1975.

Antonio C. Alvarez: Appointed lieutenant, UCSF Police Department. He is presently a watch commander in patrol operations at UC-Davis Medical Center, Sacramento. A veteran police officer with some 10 years experience, he will begin serving on the UCSF police force in late January.

Robert J. Fletterick: Appointed acting chair, Department of Biochemistry/Biophysics. He has been professor since 1982. A 1970 graduate of Cornell, he came to UCSF in 1979 as an associate professor.

PUBLICATIONS

George F. Sheldon, professor, Surgery, SFGH: Co-editor, American College of Surgeons' *Manual of Preoperative and Postoperative Care, Third Edition* (W. B. Saunders, Phila., 1983).
